

Low Carbon Societies Network

INFORSE-EUROPE
International Network for Sustainable Energy

***EU Stakeholder Seminar on Low Carbon
European Energy Scenarios 10.00 -
17.30, April 28, 2010 - Brussels, Belgium***

Low Carbon Societies Network

ENCI-LowCarb

European Network engaging Civil
society in Low Carbon scenarios

April 2009 – October 2011

Project Partners

1. Climat Action Network France – Coordination of the projet (France)
2. INFORSE Europe - International Network for Sustainable Energy Solutions (Denmark)
3. Germanwatch (Germany)
4. CIRED – International Center for research on environment and development (France)
5. PIK – Potsdam Institute for Climate impact research (Germany)

Objectives du projet

1. Creating a European network on energy scenarios composed by Civil Society Organisations and research institutes
2. Elaborating two national low-carbon scenarios (France and Germany)

European Network on low-carbon scenarios

Activities of the network:

- Organisation of 2 seminars per year
- Interactive mailinglist

If you want to join our network please contact directly the project partners:

www.lowcarbon-societies.eu

National low-carbon scenarios for France and Germany

1. Development of two low carbon scenarios for 2050 with intermediate steps, using macro-economic models (REMIND-R for Germany and IMACLIM-R for France) to evaluate the economic impact of the emission reduction pathway
2. Organization of several stakeholder dialogues to assess barriers for the implementation of different sets of political measures
3. Choice of the packages of measures that reaches a minimum consensus among the stakeholders
